

WorkFlows Format Search Enhancement

Created December 14, 2020

To make format searching easier in WorkFlows, each RSA library now has access to all codes in the WorkFlows item category 3 drop-down menu.

Item category 3 indicates the item's general format and is helpful for searching in both WorkFlows and the RSAcat.

Here are the codes now accessible in your library's item category 3 menu: AUDIOBOOK BOOK BRAILLE EBOOK-ERES EQUIPMENT GOV-DOC KIT LARGEPRINT MAP MICROFORM MOVIE MUSIC PAMPHLET PERIODICAL REALIA SOFTWARE **TEXTBOOK** TOY UNDEFINED UNKNOWN

VIDEOGAME

Even though RSA advises against using UNDEFINED and UNKNOWN because they do little to indicate the item's format, those codes must stay in the menu because they are required in our WorkFlows configuration. The document "Mandatory Codes for RSA Libraries," available here: <u>https://alsi.sdp.sirsi.net/client/search/asset/3922</u>, has been revised to reflect all codes, including UNDEFINED and UNKNOWN, are now included in the item category 3 menu.

Why did RSA make the format search enhancement?

Now that RSA made this enhancement, you will be able to search for items of any format in WorkFlows, assigned any item category 3 code, whether or not your library has that format in its own collection.

The format search enhancement applies to these WorkFlows wizards:

- Call Number and Item Maintenance in the Cataloging module
- Item Search and Display both in the Cataloging and Circulation modules
- Add Item in the Cataloging module
- Edit Item in the Cataloging module

Before this enhancement, only those codes applicable to your library's collection were in the item category 3 menu. A customized item category 3 menu was helpful for catalogers because only those codes applicable to their collections were in the menu. The customized item category 3 menu reduced the likelihood of the cataloger selecting the incorrect code as they entered an item into WorkFlows. Even if a cataloger accidentally selects the incorrect code, an automated RSA process that runs daily will assign that item the correct item category 3 based on these item type/item category 3 mappings.

The customized item category 3 menu, however, made searching by format difficult when using the WorkFlows "Search Options" helper in wizards like Call Number and Item Maintenance or Item Search and Display. If a library, for example, did not own audiobooks in its collection, but it wanted to search for a title in the audiobook format to place on hold for a patron, that library may have done a search with the word "audio" in the general field and the title entered in the title field, like this:

Call Num	ber and Item Maintena	nce ×								
TII Number an	d Item Maintenance									
A 8 1	₩ 🖛 🖚									
Author:		AND	~	Title:	lincoln lawyer		AND	~	Search	
Series:			AND	~	Reset					
General:	eneral: audio AND V Periodical Title:									
Library:	ALL							\sim		
Current:										
ADVANO	CED SEARCH KEYWO	RD Title LIN	COLI	N LAWYER, AN	ID General AUDIO, ALL: 5 rec	ords				
Title		Author			Carrier Type	Pub.	Year	Librar	y Copies	
The Linc	oln lawyer				videodisc	2011		7		
The Linc	oln lawyer [videorec					2011		2		
The Lincoln lawyer videodisc 2011 48										
The Linc	oln lawyer [electroni	Connelly, M	lichae	el, 1956-		2007		2		
The Linc	coln lawyer	Connelly, M	lichae	el, 1956- aut	audio disc	2005		6		

Notice in the example above only two audiobook results are returned, published in 2005 and 2007.

If you search by that same title using the recent enhancement, combining the title with the AUDIOBOOK item category 3 in the "Search Options" helper, notice five audiobook results are returned. The 2005 and 2007 publications are still included in the results, but three additional audiobooks are also listed:

Call Numb	per and Item Maintena	nce *						
II Number and	d Item Maintenance		_					
Author:		AND ~	Title:	lincoln lawyer		AND	~	Search
Series:		AND ~	Subject:			AND	\sim	Reset
General:		AND ~	Periodical Title:					
Library:	ALL						\sim	
Current:								
ADVANC	ED SEARCH KEYWO	RD Title LIN	COLN LAWYER,	ALL: 5 records				
Title		Author		Carrier Type	Pu	ıb. Year	Libra	ry Copies
The Linc	oln lawyer [electroni	Connelly, Mi	ichael, 1956-		20	07	2	
Lincoln ta	ales tall and true [so	Ellis, Brian,	1962-		20	06	2	
The Linc	oln lawyer [sound r	Connelly, Mi	ichael, 1956-		20	05	10	
The Linc	oln lawyer [sound r	Connelly, Mi	ichael, 1956-		20	05	1	
The Linc	oln lawyer	Connelly, Mi	ichael, 1956- aut.	audio disc	20	05	6	

RSA recommends using the recent enhancement when searching by format to avoid incomplete results. Missing results will give you an inaccurate understanding of the item's availability and could affect the patron's ability to check out or place a hold on the item.

How do you take advantage of the format search enhancement?

- 1. Log into WorkFlows using your individual cataloger, TECH (if your library still uses it), or CIRC account.
- 2. Open a wizard to search for an item, whether Call Number and Item Maintenance, Item Search and Display, Add Item, or Edit Item.
- 3. In the upper left corner of the wizard, click the "Search Options" helper button that resembles a pair of black binoculars with a red pick axe:

Call Number and Item Maintenance ×									
II Nu oer and	l Item Maintenance								
#8 19									
Author:		AND	\sim	Title:		AND	\sim	Search	
Series:		AND	\sim	Subject:		AND	\sim	Reset	
General:		AND	\sim	Periodical Title:					
Library:	ALL						\sim		
Current:									

4. From the "Search Options" popup box, use the item category 3 menu to select the format code by which you want to search. Let's use the Lincoln Lawyer example from earlier in this document and select AUDIOBOOK.

	Search Options			⊟	×					
	Search Display Call Number Browse Print									
1	Publication year	:								
:e	Format:		All		\sim					
1	Item type:		All		\sim					
	Location:		All		\sim					
	Item category 1	:	All		\sim					
	Item category 2	:	All		\sim					
	Item category 3	:	All		\sim					
	Item category 4		All		^					
	Item category 5	:	AUDIOBOOK							
	Language:		BRAILLE							
	Shadow:		EBOOK-ERES							
	Sort by:		EQUIPMENT							
			GOV-DOC							
		O	KIT		~					

- Click OK to close the "Search Options" box.
 Enter Lincoln Lawyer into the title field. Click <Search> or hit <Enter> on your keyboard.

Call Numb	er and Item Maintenance ×							
II Number and	Item Maintenance							
*** 011 191 1				1	[_	
Author:		AND	\sim	Title:	lincoln lawyer	AND	\sim	Search
Series:		AND	~	Subject:		AND	\sim	Reset
General:		AND	~	Periodical Title:				
Library:	ALL						\sim	
Current:								

7. All of the results returned have items cataloged on them that are assigned the AUDIOBOOK item category 3. Here is an example from the search shown above:

Call Numb	per and Item Maintena	nce ×									
II Number and	I Item Maintenance										
* 61 74	io 100 ← →					_					
Author:			AND	×	Title:	I	incoln lawyer		AND	\sim	Search
Series:			AND	\sim	Subject:				AND	\sim	Reset
General:			AND	\sim	Periodical	Title:					
Library:	ALL									\sim	
Current:

Modify Close											

8. When you are finished searching by format, please completely shut the wizard using the <Close> button at the bottom of the screen. This step is very important so that when you enter your next search into that wizard, the format search option you selected for the previous search is cleared.

For more information about using the "Search Options" helper, please see pages 2-4 of this guide: <u>http://alsrsa.org/client/search/asset/4427</u>. Even though this guide is written for the Call Number and Item Maintenance wizard, the same search strategies apply to the Item Search and Display, Add Item, and Edit Item wizards.

Questions about the format search enhancement?

Please contact the RSA Help Desk at <u>rsahelp@railslibraries.info</u> or 1-866-940-4083.
