

RSA Item Barcode Prefixes

Last Updated: July 22, 2024

The format for **item** barcodes is an **A** followed by 9 digits. The final number is a check digit. Every RSA member has a unique prefix. Contact the RSA Helpdesk (help@rsanfp.org) for information about ordering barcodes. Libraries listed in *italics* are no longer RSA members. The first table lists RSA libraries by their barcode prefix and the second table lists them alphabetically.

Library Name	Prefix	Library Name	Prefix
Normal PL	A120	Edwards River PLD (was Mercer	
IL Veterans Home	A12102	Carnegie)	A340
