

## RSA User Barcode Prefixes

**Last updated: July 22, 2024**

The format for **user** barcodes is a **D** followed by 9 digits. The final number is a check digit. Every RSA member has a unique prefix. Contact the RSA Helpdesk ([help@rsanfp.org](mailto:help@rsanfp.org)) for information about ordering barcodes. Libraries listed in *italics* are no longer RSA members. The first table lists RSA libraries by their barcode prefix and the second table lists them alphabetically.
