

Did you know? RSA can help if:

- Staff need WorkFlows cataloging training (now 4 hours!) or a cataloging site visit.
- You need an Individual Cataloger Account created or removed.
- You need assistance creating, updating, or correcting a brief record.
- There are drop-down menu codes you would like to add or remove, such as the AUDIOBOOK Item Type for Wonderbook or Vox items.
- There is uncertainty about which record to choose for your item—or what to do if a matching record does not exist.
- You need help determining a nonfiction call number.
- Your collection would benefit from batch editing.
