

Holds Training Resources Cheat Sheet

Last updated: November 15, 2024

RSA recommends that you review the following documents and videos available at our support site and YouTube channel. This list is a useful primer on RSA's policies and standards regarding Holds and on how to manage holds in WorkFlows. These resources should be useful both as a refresher and to be given to new staff at your library. While most of these resources are held on the [Holds page](#) of the support site some are also held on and the [Resource Sharing](#) page.
