

New Director

WELCOME TO AN RSA LIBRARY!

What is RSA?

Resource Sharing Alliance (RSA) is a consortium formed in the early 1980's by libraries in central and west central Illinois to share a common library automation system.

RSA facilitates sharing of materials among its member libraries, providing patrons with access to materials from 176 different library branches.

RSA covers over <u>13,500 square miles of Illinois</u>.

RAILS Resource Sharing Map

RSA provides a support staff of 10 full time professionals.

RAILS vs RSA

How are these Organizations Different?

RAILS provides services such as:

Delivery of interlibrary loan materials – System members can get interlibrary loan materials delivered to and from any other Illinois library for free. This includes books, movies, music, and more.

Continuing education – RAILS holds frequent low cost/no cost webinars and workshops specifically on topics related to libraries (i.e. library programming, collection development, increasing circulation). Most events are archived and available for watching at any time.

Grants – RAILS offers a number of grants for members including: 1) a Continuing Education Event Grant, which allows members to host their own professional development at no cost, 2) a My Library Is... Grant which helps fund programs that promote library services like videos, social media, infographics, and more.

Deals & discounts – RAILS offers members a number of cooperative purchasing programs and vendor discounts at no cost.

Support for e-books – Any system member can participate in a fee-based program called eRead Illinois which offers affordable access to Baker & Taylor's Boundless platform.

Email lists & networking groups – Members also enjoy the opportunity to connect and discussion new ideas and best practices. Any staff from any library can join one of our 40+ email lists or meet up with a networking group in their area.

RSA provides services such as:

- In person and online training
- · In person and online library visits
- · Automation system related consulting
- General automation system troubleshooting and support
- System-wide holds between members for +90% of all consortia holdings
- · Original and Copy Cataloging support
- · Circulation and holds support
- · Database editing and cleanup support
- Statistical reports
- · Notice reports for patrons
- · Detailed documentation for the shared ILS
- · Group purchases for e-books
- · Online Catalogs for patrons
- Direct access to e-books, advanced author/series/title information, access to 55+ million online articles and more as part of RSA membership
- Opportunities for networking and peer learning
- · Governance and leadership opportunities

For a full listing of all RSA products and services, please visit the RSA support site at https://support.librariesofrsa.org or email the RSA Help Desk at help@rsanfp.org

RSA Governance and Communication

Directors Advisory Committee (DAC)

The primary purpose of the Directors Advisory Committee is to gather feedback, present plans, policy updates, share and gather strategic plan ideas, and generally comment on the operations of RSA. This Committee is the primary feedback mechanism for Directors to share directly with the Board.
