Subject: Project Completed: Removing Paid Bills 2019 and Prior

The Board of Directors approved a project to remove all FULL PAID bills in the system that were paid prior to the end of 2020. This was to reduce the mass of bills in the system which had grown large enough to cause speed and operational issues.

Here is the count of all bills not full paid (False column) and fully paid (True column). This report reflects the system as of 12 June 2025.

You should notice some patron’s records are loading quicker now. There were patrons with thousands of bills on their accounts, each one of which needed to be loaded prior to displaying the patron’s record in Workflows.

The system is far happier now without having to look through all those old bills every time the bill section of the system is touched.

More frequent system cleaning is being proposed in the system data retention policy draft currently under development.
