Antony is very happy to hold a conversation about standardization. I will use the session to try and recruit a working group. Also, Sirsi are sending two people. I believe one of them will be someone senior in product development which should be very useful. If you have specific ideas about talking points, that's great. Otherwise, I would think they would talk on BLUEcloud Circulation, BLUEcloud Mobile (the new RSAcat app), and BLUEcloud Discovery (the eventual replacement for Enterprise).
