Please choose this record, which has Library of Congress's DLC symbol in the 040 field, even though the record is an encoding level 8, which indicates it is an incomplete, pre-publication record.

If there are multiple DLC records that describe the same item, choose the record with the most libraries attached to it in the RSA database or OCLC.

Report the duplicate records to the RSA Help Desk at help@librariesofrsa.org.

Please do not use this record because the 040 field lacks Library of Congress's DLC symbol.

The record shown above with DLC in the 040 is preferable to this non-DLC record, even though the non-DLC record is assigned an encoding level value of blank, which indicates full bibliographic description.

Report the duplicate records to the RSA Help Desk at help@librariesofrsa.org.
