RSA Item Barcode Prefixes

Last Updated: July 1, 2026

The format for **item** barcodes is an **A** followed by 9 digits. The final number is a check digit. Every RSA member has a unique prefix. Contact the RSA Help Desk (help@librariesofrsa.org) for information about ordering barcodes. Libraries listed in *italics* are no longer RSA members. The first table lists RSA libraries by their barcode prefix and the second table lists them alphabetically.

Library Name	Prefix	Library Name	Prefix
Normal PL	A120	Cambridge PL	A341
IL Veterans Home	A12102	Havana PL	A342
